

The Game Remains the Same by Khalif 'Ras' Williams

False Statements comin from forked tongues of snake men,
Not hidden or disguised but suit and tie thug nation
Got the nerve to talk about hand outs and welfare,
But you've fared well from Wall Street to health-care
While we just watchin modern day slaves and sharecroppers,
Working 9 to 5's got us slaving for dollars instead of cotton
The whip they crack is your paycheck,
You don't play the game their way its economic death,
They could careless once your gone they just replace you,
You're just a host for parasites to bleed and rape you
Nothing is more evil than the evil that men do,
For the smallest reason they will torture and dead you
Men are Gods or Devils by their words and deeds
People conceived religions with intent to deceive,
And many fall victim to the word believe not understanding Adam lied to Eve,
Because the snake was Adam's mind, the fruit was sex,

Sex creates life but supposedly sex was death?
That's why they covered up when God caught them, yes?
Caught while making love without the deity's consent
Knowledge doesn't come from fruit it comes from study,
Your nuts if you think a fruit could a man smart when he's a dummy
The masses are high on religious opiates,
Anesthetized to accept this dope and shit
This world is hopeless if this insanity continues,
500 years, we still don't know the truth of what we've been through
And if you think this is a joke or game,
Just read the headlines from slavery until to today
Nigger escaped the plantation trying to find a way out,
Help us find him the system will give you a pay out
Stop snitching on revolutionaries FUCK criminals,
Protecting your oppressor you're a fucked up individual
Cuz you can kill me with ease and no thought,
But your oppressor you show non aggression you follow his laws
No less traitorous than educated Negroes,
Touted by the media to be our heroes
You never have and never will represent me,
I cut the heads of snakes because you're my enemies, niggers bleed
Cuz they can't get out the matrix of the shitstem,
Think outside the box or remain another victim
